ACTA OCEANOLOGICA SINICA

Subject index to Vol. 11, 1992

Marine Hydrology

1……Cross thermocline mixing effect due to tide in the shallow sea
Yang Dianrong (杨殿荣), *Zhou Dejian* (周德坚) and *Zhang Yulin* (张玉林)

13……LAGFD-WAM numerical wave model— Ⅰ. Characteristics inlaid scheme and its application
Yuan Yeli (袁业立), *Hua Feng* (华　锋), *Pan Zengdi* (潘增弟) and *Sun Letao* (孙乐涛)

25……The study on the numerical prediction method for the vertical thermal structure in the Bohai Sea and the Huanghai Sea— Ⅰ. One-dimensional numerical prediction model
Wang Zongshan (王宗山), *Xu Bochang* (徐伯昌), *Zou Emei* (邹娥梅), *Yang Keqi* (杨克奇) and *Li Fanhua* (李繁华)

35……The features and generation of CWB near the South Shetland Islands in austral summer of 1987
Li Jinhong (李金洪) and *Pan Ziqin* (潘子勤)

47……A model for predicting SST in limited region— Ⅰ. The dynamical equations
Wang Sizhen (王赐震) and *Su Yusong* (苏育嵩)

57……A model for prediction SST in limited region— Ⅱ. The model's physical equation
Wang Sizhen (王赐震) and *Su Yusong* (苏育嵩)

157……A hybrid model for numerical wave forecasting and its implementation— Ⅱ. The discrete part and implementation of the model
Zhang Dacuo (张大错), *Wu Zengmao* (吴增茂), *Jiang Decai* (蒋德才), *Wang Wei* (王　伟), *Chen Bohai* (陈伯海), *Tai Weitao* (泰伟涛), *Wen Shengchang* (文圣常), *Xu Qichun* (徐其春) and *Guo Peifang* (郭佩芳)

179……Numerical calculation of drift current in wind waves
Chen Zhan (陈　展) and *Zhang Zhaoshun* (张兆顺)

189……Comparison of the seven large meanders of the Kuroshio
Sun Xiangping (孙湘平), *Wang Yuanpei* (王元培) and *Kaneko Ikmo*

317……Turning mechanism problems of the Changjiang River diluted water
Zhao Baoren (赵保仁)

331……Numerical modelling of the depth variation and the fluctuation of the thermocline under the effects of wind in the Bohai Sea
Zhang Yanting (张延廷) and *Wang Yijiao* (王以娇)

343……Hydrographic structure and circulation in the central area of the North Eastern Atlantic
Xu Jianping (许建平)

357……Preliminary study on concentrations and size distribution of marine aerosols over the East China Sea
Cai Rongshuo (蔡荣硕), *Chen Liqi* (陈立奇) and *Tang Rongkun* (汤荣坤)

367……The continental shelf wave of the East China Sea and its effect on the Kuroshio
Kong Xiangde (孔祥德), *Yin Xunfu* (尹逊福) and *Li Fanhua* (李繁华)

375……Heat oscillation in the upper ocean of the southern South China Sea
He Youhai (何有海), *Guan Cuihua* (关翠华) and *Gan Zijun* (甘子钧)

471……Dissipation source function and an improvement to LAGFD-WAM model
Yuan Yeli (袁业立), *Hua Feng* (华　锋), *Pan Zengdi* (潘增弟) and *Sun Letao* (孙乐涛)

483……Preliminary analysis of distribution and variation of perennial monthly mean water masses in the Bohai Sea, the Huanghai Sea and the East China Sea
Liu Shuxun (刘树勋), *Shen Xinqiang* (沈新强), *Wang Youqin* (王幼琴) and *Han Shixin* (韩士鑫)

499……A model for the response of wave directions in slowly turning wind fields
Li Luping (李陆平) and *Gong Bin* (龚　滨)

509……Experiments in numerical modelling of the Pacific sea surface temperature anomalies
Zhang Ronghua (张荣华) and *Wang Wanqiu* (王万秋)

Marine Meteorology

67……Abnormality of thermal structure and current in the upper western tropical Pacific Ocean and its effect on subtropical high
Pu Shuzhen (蒲书箴) and *Yu Huiling* (于惠苓)

205……The circularly propagating pattern of the low-frequency fluctuations of monthly MSL in the tropical Pacific Ocean and its correlation with El Nino
Yu Jiye (于继业), *Chen Shangji* (陈上及) and *Fang Xinhua* (方欣华)

389……Abnormality of the monsoon wind in the sea area along the southeastern coast of China and the response of the northern area of the South China Sea during the ENSO events
Liu Zanpei (刘赞沛), *Song Wanxian* (宋万先), *Lin Shaohua* (林绍华) and *Zhang Dongsheng* (张东升)

401……Numerical simulation of influence of the anomalies of the Central-eastern Equatorial Pacific SST and Arctic sea ice cover in summer on the atmospheric circulation
Yang Xiuqun (杨修群) and *Huang Shisong* (黄士松)

525……A preliminary analysis of physical mechanism of transformation process from a landed typhoon into an extratropical cyclone

Zhang Qiuqing (张秋庆) and *Ding Yihui* (丁一汇)

537……Atmosphere-ocean interaction and teleconnection in the Northern Pacific during the cold season
Jiang Quanrong (蒋全荣) and *J. M. Wallace*

547……Numerical simulation of the tropical Pacific response to equatorial wind stress anomalies
Hua Ming (华　明) and *Ni Yunqi* (倪允琪)

559……A numerical study of the impact of SST anomaly in the warm pool area on atmospheric circulation in winter
Dong Min (董　敏), *Chen Longxun* (陈隆勋) and *Liao Hong* (廖　宏)

Marine Chemistry

219……Transport patterns of micro nutrient elements from the continental shelf of the East China Sea to the Kuroshio area
Lu Saiying (陆赛英), *Yao Qiao'er* (姚乔尔) and *Chen Zhen* (陈　真)

231……Effects of β-ecdysone and polypodine-B on moulting and growth of prawn, *Penaeus orientalis*
Luo Rixiang (罗日祥), *Wang Yuying* (王玉英) and *Li Guangyou* (李光友)

Marine Geology and Geomorphology

83……A study on suspended matters in the South Huanghai Sea in summer time
Zheng Tiemin (郑铁民), *Zhao Yiyang* (赵一阳), *Li Fan* (李　凡), *Qin Yunshan* (秦蕴珊) and *J. D. Milliman*

413……A study on Holocene aeolian shell-clastic sandstones along the coasts of South China and the analysis of its formation
Li Pingri (李平日)

573……Paleomagnetism and paleoclimate change in the South China Sea since the late Pleistocene
Xidong Chen, *Douglas F. Williams*, *Yuan Youren* (袁有仁), *Wang Baogui* (王保贵), *Tang Xianzan* (汤贤赞), *Fan Shiqing* (范时清) and *Liu Zongyang* (柳枞阳)

Marine Biology and Fishery

97……An analysis on the formation mechanism of the distribution of high content of chlorophyll-a in the continental shelf edge waters of East China Sea
Fei Zunle (费尊乐)

109……Distribution of indicator dinoflagellates in the East China Sea
Lu Douding (陆斗定)

123……The effects of the environmental factors on *Laminaria* disease caused by alginic acid decomposing bacteria
Ding Meili (丁美丽)

131……Two new species of *Exogone* and *Sphaerosyllis* (Polychaeta, Syllidae) from the Huanghai Sea
Zhao Jing (赵 晶) and *Wu Baoling* (吴宝铃)

237……A study on zooplankton distribution patterns and indicator species in Kuroshio upstream area and adjacent East China Sea
He Dehua (何德华), *Wang Chunsheng* (王春生), *Liu Hongbin* (刘红斌) and *Yang Guanming* (杨关铭)

255……Estimating *Synechococcus* spp. growth rates and grazing pressure by heterotrophic nanoplankton in the English Channel and the Celtic Sea
Ning Xiuren (宁修仁) and *Daniel Vaulot*

425……Relationships between chlorophyll-a, bacteria, ATP, POC and respiration rates in the Changjiang Estuary and the plume
Ning Xiuren (宁修仁), *C. Courties*, *Shi Junxian* (史君贤) and *G. Cauwet*

435……The impact of several chemical poisons on the absorbing ^{45}Ca by the *Arca granosa*
Cai Fulong (蔡福龙), *Chen Ying* (陈 英) and *Huang Lingyi* (黄凌毅)

441……Annual change of the number of anaerobic sulfite reducing bacteria in sediment of Daya Bay
Zhou Zongcheng (周宗澄), *Ni Chunzhi* (倪纯治), *Zeng Huoshui* (曾活水), *Yao Ruimei* (姚瑞梅), *Cai Ziping* (蔡子平), *Lin Yanshun* (林燕顺), *Liang Ziyuan* (梁子原) and *Gu Jingyu* (顾静瑜)

449……New species and new records of diatoms from Xiamen Harbour
Li Yaqin (李雅琴), *Cheng Zhaodi* (程兆第) and *Jin Dexiang* (金德祥)

583……The ultrastructural study of the spermatid differentiation in *Cyclina sinensis*
Zeng Zhinan (曾志南) and *Li Fuxue* (李复雪)

593……The study of fluorescence characteristics and biochemical composition of a marine diatom *Thalassiosira pseudonana* 3H in light and dark cycles— I . The effects of nutrients
Zhu Mingyuan (朱明远), *Yang Xiaolong* (杨小龙) and *J. J. Cullen*

Marine Engineering

275……Experimental study on the 350 msw simulated heliox saturation-370 msw excursion diving
Gong Jinhan (龚锦涵), *Yuan Jinfu* (袁锦富), *Pan Lingsong* (潘令松) and *Tang Ruqing* (唐儒清)

287……Theoretical solution for wave diffraction by wedge or corner with arbitrary reflection characteristics
Hong Guangwen (洪广文)

453……Wave-current forces on bipiles in parallel array
Li Yucheng (李玉成), *Wang Fenglong* (王凤龙) and *Wang Hongrong* (王洪荣)

Notes

139……Comparison of procedure for fecal coliform enumeration in coastal waters
Ni Chunzhi (倪纯治), *Zeng Huoshui* (曾活水), *Yao Ruimei* (姚瑞梅) and *Liang Ziyuan* (梁子原)

145……Preliminary studies on the characteristics of the growth of released prawn, *Penaeus orientalis* Kishinouye, for reproduction in middle Huanghai Sea fishing ground
Chen Zongyao (陈宗尧), *Liu Yongchang* (刘永昌), *Zhang Yunshang* (张云尚) and *Gao Yongfu* (高永福)

153……An SEM study on Mullet gill filament material and methods
Wang Liangchen (王良臣), *Cui Tongchang* (崔同昌) and *Liu Guoquan* (刘国权)

305……Influence of Kuroshio water on the distribution of dissolved oxygen in the northern East China Sea
Fu Yongfa (傅永法)

463……Preliminary studies on the diel vertical migration of *Clanus sinicus* (nauplius-adult) larvae at every stage in the North Huanghai Sea
Liu Xiaodan (刘晓丹) and *Wang Zhenliang* (王真良)

603……Vertical membrane floating breakwater
William G. McDougal, *Liu Wentong* (刘文通) and *Charles K. Sollit*

611……The mechanism of retinomotor movements in the retina of banded grouper (*Epinephelus awoara*)
He Daren (何大仁) and *Zhang Houquan* (章厚泉)

617……Phytoplankton ecology in the adjacent waters of the Daya Bay Nuclear Power Station in Guangdong in spring
Yang Qingliang (杨清良) and *Lin Jinmei* (林金美)
